CORPORATION PATRONAGE.

After examining with some attention the various Reports of the Comptrollers of our Corporation for several years past, hitker. From the resemblance of Brown to the description the passengers of both boats was held, and their thanks we have come to the conclusion that the Figureial affairs of the City are not only in a very unsatisfactory and confused state, but that they are in a very dilapidated condition. We at first entertained the design of simplifying the subject, by mercial Bank of New-Orleans, it was supposed by Mr. Bla- and, of the S. A., and his crew making out an analytical statement of the various properties, ney, High Constable of Philadelphia, and officers of this city, funds, and resources of the city, and comparing it with the that Brown was the great forger who had so successfully actual expenses and disbursements at the present time; but forged the certificates of deposit in question, and it was dewe soon found that the whole subject had been so thoroughly termined if nessible to arrest him. we soon found that the whole subject had been so thoroughly termined, if possible, to arrest him. and designedly mystified for years past, that to thread the labyrinth and draw order out of this confusion, would be a serious task; and if fully executed, would result in a volume quite too large for public use. Our object at this time is Walker and Stephens of this city, were in motion, to find, merely to direct public attention to the subject previously to and, if possible, to arrest Major James Brown, whom they the organization of the new Board next month, when we trust and hope a serious attempt will be made by the Whig Members to produce a thorough and substantial reformation in all Brown, but also another distinguished felon, named Benjacases requiring it; and for that purpose we shall throw out such loose hints and suggestions occasionally, as we think will aid them in their efforts and facilitate their inquiries.

The first subject which naturally presents itself at extravagant salaries of the office-holders under the Corporation. Reform and retrenchment are now the order of the day. The dilapidated state of the Finances of the General Government, owing to the wasteful extravagance of the late Administration, has induced the Whigs in Congress at its last session, to bring forward a law reducing the salaries and perquisites of some of the principal officers in the Commercial Cities, within a reasonable limit. A similar reduction will doubtless be made in other instances, not only in the salaries but also in the number of the officers employed by the Genural Government. Economy will be the order of the day, and the Derescratic principles of Jefferson in this respect will be carried out by the Whig Party. With this example before them, with public opinion strongly in its favor, it would be indeed strange, if the Whig Party in this City did not second the impulse already given, and if the Whig Members of the Common Council did not improve so favorable an opportunity to correct the unparalleled abuses that now exist in our City Government.

We will now cite two offices held under the Corporation viz: those of Counsellor and Attorney to the Board, as instanees of useless and gratuitous waste and extravagance that ces have made immense fortunes for the incumbents in a very few years. Lately, some regulations have been made under the pretence of reducing the perquisites, which have not, howver, effected any material change. We find the salary of the Counsellor of the Board put down in the Comptroller's Report at \$4,801 29, and that of the Attorney, which we had to search for and finally found under the head of penalties, at \$3,000. Now these are the salaries of these officers, but it must not be inferred that this is all, or even a fifth part, that they actually receive by virtue of their appointments. What an outrage and abomination is this !-that two lawyers should B receive and enjoy a monopoly in salaries and fees of perhaps \$40,000 yearly! The fact is, that these officers, like most others, are usually given to second or third rate men, who happen to be the favorites of the political party in power. There is not the least necessity or propriety in giving them any salary whatever, or of permitting them to enjoy a mo nopoly of the Corporation business. First rate lawyers can be readily found, who would gladly do the business and do City. Indeed, we have heard the assertion made by competent judges, that the Corporation could obtain \$20,000 yearly by farming out those offices, and receive any required security for the faithful performance of the duties. Shall such an to remain?

HON. N. P. TALLMADGE.-We rejoice to see the following paragraph in last evening's 'Times and Star,' which is of course the best authority with regard to our disringuished Senator and his purposes. Mr. Tallmadge takes the right ground. Although thousands of his political friends would gladly hall his elevation to some post of higher distinction or would be a public misfortune. The 'Times' says:

Mr. Tallmadge will abandon his past in the Senate and take office under the General Government. The fact that she had been out nearly thirty days when the Great Western sailed is of itself alarming; but when to this are added the absence of all tiding. the knowledge that a furious storm was experienced on the Atlantic on the 13th and 14th ult., and the fact that formidable and vast ice-bergs were encountered by the South Ameriought to be immediately reformed. machinery in discense discharging the steam into the gangways and cabins.

All was confusion for the moment. Passengers jumping from the berths, or not thinking to envelope themselves in the bed-clothes, (which some had the presence of mind to do.) encountered the vapor, and were, in the instances wa give below, scalded more or less severely; though we are happy to state that the probability is that all, with perhaps one exception, will survive. Owing to the promptitude and energy of Captain Brainard and the officers and crew of the boat, the sufferers and the other passengers were relieved from immediate langer, and the steamboat Diamond opporusely coming up soon after the occurrence, went at once to The passengers, including those who were disabled, were immediately taken an board the Diamond, where abled, were immediately taken as woard the Diamond, where every attention was afforded them, and every thing done by Capt, Flower, his passengers, officers and crew, to alleviate their sufferings. lading. He thought, therefore, that two steamboars should not crowl out so many vessels. Alderman Pentz took the same view of the subject. Alderman Campbell said the steamboars would not occupy any more space than at present, while the City Treasury would receive \$5000 a year from the slip and piers, where as they now brought only about \$1005. This was important to the City Treasury. The report was adopted, 8 to 7. A motion to reconsider the vote, made by Mr. Pentz, was lost.

M. BODISCO'S ADDRESS

Ma. President: The United States having been suddenly deprived of its supreme head, the Constitution has invested you with the Chief Magistracy of the Union.

The Diplomatic Corps has the honor to appear before you, the memory of General Harrison, late President. Referred.

To direct the counsel of the Corporation to apply to the Legislature for a law to provide for the collection of taxes in this city by a departition provided for that purpose, if, on an examination of the charter, by such an act of legislation, the present system of ward collection can be dispensed with. Referred.

To display the counsel of the Corporation to apply to the Legislation, the present system of ward collection can be dispensed with. Referred.

President, to assure you of its earnest desire to merit your

confidence and esteem. THE PRESIDENT'S REPLY.

Mr. Minister: In my character of Chief Magistrate of the
United States, and in the name of the People thereof, I have to return to the Diplomatic Corps, whom you on this occasion represent, my acknowledgements for their expression of condolence on account of the bereavement which this country has so recently sustained in the death of its late inmented and illustrious President. I take occasion, at the same time, to give the assurance that my most carnest desire, as his constitutional successor, will be to maintain and cherish the

friendly relations which now so happily subsist between our respective countries. The People of the United States regard their own preity as intimately connected with that of the entire family of mations, and the cultivation of the feelings of murual amity as

best mode of advancing that important end. I sincerely desire that the residence of the Diplomatic Corps near this Government may prove every way agreeable to them—to accomplish which nothing shall be wanting on
